### Explanation of Form Used

#### Classification for Name

The surnames of the grooms are filed by the Russell-Soundex system, arranged by given names in alphabetical order within each Soundex group. The complete given name is spelled out when given on the certificate, and where space permits, otherwise abbreviations and initials are used.

Brown (Filipino)  
Latian

The ages of groom and bride are shown in the second and sixth columns, respectively.

The color, or race, of the groom is shown by a one-letter abbreviation in the third column; the color of the bride is ordinarily the same. If the color of the bride differs from that of the groom, this is shown by the letter in parentheses following the bride's name.

White were licensed

The birthplaces of groom and bride are designated by two-letter abbreviations in the fourth and seventh columns, respectively. State or

Maryland

Country

The eighth, ninth, and tenth columns give the month, day, and year when the ceremony was performed.
